

TRADE FOR THE WEEK

Government Crop Reports Not Credited by Dun & Co.

THE WHEAT AND CORN CROPS

Wool Sales Not Large as Compared With Former Years—Were Less Failures Last Week—Other Features.

New York, Sept. 13.—R. G. Dun & Co. in their weekly review of trade will say: A slight set back which may mean much or nothing, according to the final outcome of crops, is not unexpected at this season. If the government crop reports were correct, the situation would not be encouraging, but no confidence is placed in the reduced estimate of corn, none at all in the slim wheat, and even the most enthusiastic bulls do not think it worth while to quote the government report as to collections. The fact is that we are beginning to market not far from 2,200,000 bushels of corn, though about 500,000,000 bushels will be moved from the country where it is grown; about 400,000,000 bushels of wheat, of which the farmers are unwise holding back a large proportion, and about 7,200,000 bales of cotton, if the latter indications are not erroneous, may be added to the stocks carried over.

The wheat crop is evidently larger than the department has estimated, though nobody knows how much larger and it is coming forward with more encouraging rapidity. The price declined sharply, about 2 cents per bushel, with little indication of recovery. The price of corn has also yielded with a strong prospect of the largest crop ever grown, and at 28 cents at New York a large proportion of the crop will be of little profit to farmers. If we are to have a large crop of grain and a small crop of cotton, it is natural to infer that manufacturers may find large transactions at the West, but not at the South. There is in fact a very large demand for goods at the South and West and shipments are unusually large.

The market for finished iron products is little weaker with indications of the situation on the part of the buyers at Philadelphia and Pittsburgh, although prices are on the whole fairly maintained. There is a great pressure of structural products and plates, but bar iron is still quoted at Pittsburgh at \$1.45 and tank steel at \$1.19. Rapid shipments of Marquette ore during the past week have caused a decline in the price of Bessemer product. Nothing of importance has occurred in the minor metals, though tin has been stronger at times with London buying, and copper has been helped by the report of a big sale of Lake at 12 1/2 cents.

Sales of wool have been 6,147,900 pounds for the week, against 11,311,300 pounds for the same week in 1892, and there are indications that the domestic market is quite overstocked with the speculative purchases made some time ago. Failures for the week were 187 against 219 last year.

Bradstreet's Report. New York, Sept. 13.—Bradstreet's tomorrow will say: "The week is characterized in trade circles by an unexpected turn. This is reflected at markets from which supplies are distributed to these regions. Relatively unfavorable features are felt in a quieter tone in dry goods, jobbing circles, a check for seasonal trade throughout the Central West, due to the unusual heat, low prices for men's woolsens and an unsatisfactory look due to the depressed quotations abroad. Only moderate orders are given for woollen manufactured goods. The most bullish report comes from St. Louis, where there were many country buyers, and all lines of staple merchandise are active, with railroads making free purchases, and manufacturing industries pressed to keep up with the requirements. Kansas City, too, also a distributor to the West and Southwest, reports unusually prompt mercantile collections and relatively enormous orders placed with the wholesalers for shoes, dry goods and hardware. At the South the fall trade is opening up more freely than anticipated, with a marked improvement in business and an increased confidence as to the outlook at Jacksonville, Atlanta and Augusta.

"The improvement in iron has had an influence in Birmingham and the throughout the tributary region, an evidence of which is found in the temporary inability of the Birmingham wholesalers to meet the demand for hardware and groceries. As for the firmness of cotton goods prices, which is again conspicuous today, Transactions in stocks exceeded yesterday's record by 150,000 shares and today's distribution of business was excellent. The local market developed weakness at the outset on rapidly succeeding announcements of engagements of gold for export to-morrow.

Stocks and Bonds. New York, Sept. 13.—The eccentricity of the movement which has nearly all the week characterized speculation in Wall street was again conspicuous today. Transactions in stocks exceeded yesterday's record by 150,000 shares and today's distribution of business was excellent. The local market developed weakness at the outset on rapidly succeeding announcements of engagements of gold for export to-morrow.

Money Market. Money firmer; closed 1 1/2 per cent. Sterling exchange dull and firm; \$4.50 for demand and \$4.39 for 60 days. Government bonds firm.

Metals Market. Silver, 67. Petroleum, quiet; United closed \$1.22 bid. Pig iron steady. Copper, strong. Lead, strong; brokers' price, \$2.25; exchange price, \$2.27 1/2 @ \$2.30.

CHICAGO MARKETS.

Live Stock. Chicago, Sept. 13.—In cattle there was a fair Friday supply the receipts being estimated at 5,000 head, against 2,500 head last Friday; the offerings including 2,500 head of western rangers. Prices were steady, with fair general demand, only weakness being in heavy native steers, which have been selling about 15 cents lower than a week ago.

Hogs were 5 and 10 cents higher. Heavies, \$3.80 @ \$4.10; medium and mixed, \$3.60 @ \$4.00; lights, \$3.50 @ \$4.00. Sheep were in good demand. Natives, \$2.50 @ \$2.75 for inferior; \$2.80 for choice, with sales chiefly at \$2.50 @ \$2.75. Receipts—Wheat, 47,000 bushels; corn, 10,000; sheep, 10,000.

Wheat Market. Wheat started firm and during the first half hour sold 1/2 above the close last night, but weakness then set in and it did not take long for prices to go off 1/2. The early cables were better and there was good buying for a time, both to cover shorts and for the long account.

Chicago Produce. Close—December wheat, 84 1/2; corn, 28 1/2; May oats, 21 1/2; January pork, \$9.47; lard, \$5.32; ribs, \$4.57. Receipts—Wheat, 47,000 bushels; corn, 10,000 bushels; oats, 28,000 bushels.

Boston Wool. Boston, Sept. 13.—The Boston Commercial Bulletin will say: The wool market has been the scene of more than 1,000,000 pounds of South American wool for export to Antwerp. Foreign markets have advanced above American, but as foreigners will not purchase American wools and as American mills are suffering greatly from the unprecedented competition of foreign goods, our markets have not yet responded. There was a sale of Ohio this week at 20 1/2, not an advance, but a full quotation. There has been no advance in domestic wools. Pulled wools and wool skins are lower than last week. The sales of the last week were 2,200,000 pounds domestic and 3,000,000 pounds foreign, against 2,123,000 pounds domestic and 3,000,000 pounds foreign last week and 4,002,300 pounds domestic and 1,320,000 pounds foreign for the same week last year.

Boston Mining Stocks. Boston, Sept. 13.—B. & M., 89 1/2; B. & B., 20 1/2.

Industry. "Look here," said the man who was in a hurry, to a mendicant, "you ought to go to work." "Well, mister," was the reproachful reply, "I've chased fellers like you fur 100 blocks or so a day every day this week, from 10 in the morning to 11 at night. I git sassed offener an' harder den a baseball umpire, an' average 'bout \$1.60 per week, includin' Sundays. Ef them ain't long hours an' low wages, I don't know."—Washington Star.

Notice. The Board of County Commissioners of Deer Lodge County, State of Montana, hereby order and call a special session to be held on September 19th, A. D. 1895, in the office of the County Clerk in the Court House of said county in the town and county of Deer Lodge, to transact the following business, to-wit:

First—To take such action and make such orders as may be necessary to complete the sale of advertising for bids to construct said road and the consideration of such other road business as may legally come before them.

Second—To receive report of H. B. Davis, acting surveyor, on change of road from Mulkey Canyon to Treka. Said Board at Special Session will continue in session Two Days if necessary to complete the transaction of said business. It is ordered that a copy of this order be published at least five days prior to the 19th day of September, 1895.

(Signed) A. M. WALKER, C. H. HOFFMAN, C. H. WILLIAMS, Members of said Board.

Notice is therefore given that said Special Session will be held by said Board at the time and place and to transact the business specified in the foregoing order.

JNO. B. FISHER, County Clerk in and for said County.

Celebrated Man on a Celebrated Railroad. General Lew Wallace, the renowned author, statesman, traveler and author, pays this compliment to the Chicago, Milwaukee & St. Paul Railway in the St. Paul Evening News-Record, Oct. 6, 1894:

"I have traveled all over the United States and Europe, but never before I seen such magnificent train service as I enjoyed on the Milwaukee, between Chicago and St. Paul. The private compartment cars are superior to anything of the kind I ever saw."

The trains referred to by the author of "Ben Hur" are vestibuled throughout, heated by steam, lighted by electricity and arranged with the famous electric berth reading lamp.

J. T. CONLEY, Asst. Gen. Pass. Agt., St. Paul, Minn.

The Latest From South Africa. Late advices from Johannesburg and other South African mining camps show that valuable properties are being constantly located.

Experienced miners, machinists, engineers, carpenters and timber men are always in demand at good wages, while fruit growing offers lucrative occupation to parties understanding the business and desiring to enter that field of industry.

Johannesburg, a city of 60,000 souls, is an excellent market for the various kinds of fruit, which may be raised in abundance in the vicinity of the town, at small cost. The only fruit growers in the country, being an indolent class, do not supply the demand.

GOLD FOR SHIPMENT

Nearly Five Million Withdrawn From the Sub-Treasury.

ABOUT THE BIG SYNDICATE

J. Pierpont Morgan Says Everything Will End O. K.—Waiting for the Cotton Crop and Other Produce.

New York, Sept. 13.—The following announcement for gold shipments by to-morrow's steamers have been made: W. H. Crossman & Bros., \$1,000,000; Hoskier, Wood & Co., \$500,000; Hard & Rand, \$200,000; Nesslage & Fuller, \$100,000; Lazard Freres, \$2,500,000; Hardy & Harmon, \$150,000. The fact that Lazard Freres is an important member of the government bond syndicate increases the already great surprise regarding the gold shipment. A member of the firm made the following statement to the associated press:

"We believe that during the first half of September a sufficient amount of grain and cotton and other bills would be offering, and the necessity of exporting gold would thus be averted. Our shipment of gold is an imperative necessity in order to fulfill our business obligations with Europe. We hold it will be a temporary expedient and that within the next few weeks plenty of bills will be offered, and everything will come around all right."

The firm asserts that the low price ruling for our breadstuffs, the slow movement of cotton and the fair supply of that staple already in European hands are the causes for the shipment of gold. The Hanover National bank has deposited \$500,000 in the sub-treasury in exchange for greenbacks. The sum of \$500,000 was withdrawn from the sub-treasury this morning. It is a part of the engagements announced for shipment. Hardy & Harmon have increased their shipment to \$250,000, making the aggregate thus far \$1,450,000. Zimmerman & Forsyth will forward \$3,000 of English gold to-morrow.

J. Pierpont Morgan, head of the government bond syndicate, when asked as to a rumor of the dissolution of the syndicate, replied: "The syndicate is still in the field. There has been no rupture. The syndicate will do all it can to help maintain the treasury gold reserve at the \$100,000,000 mark. The obligations of the syndicate, however, expired some time ago." Morgan expressed surprise at the slow movement of the gold shipment, but he said that the scarcity of bills against breadstuffs. He said that undoubtedly offerings of these bills will be daily received in the next few days. Thus a safeguard against exports will be made.

The large down-town bank said the syndicate was accumulating gold as fast as possible, and that it would be loaned to the treasury. The example of the Hanover National bank in depositing \$500,000 this morning for shipment is expected to be followed this afternoon by a number of other New York banks.

The National Bank of Commerce and the American Exchange National bank have each deposited in the sub-treasury \$200,000 in gold in exchange for greenbacks. The National City bank will probably deposit between \$500,000 and \$1,000,000. The National Park bank has deposited \$1,500,000 in gold at the sub-treasury in exchange for greenbacks.

Washington, Sept. 13.—The news that \$1,500,000 had been withdrawn from the sub-treasury at New York for export was received here with surprise, and the announcement created a great commotion. A like commotion in the treasury department. This feeling, however, was not shared by high officials, who apparently regard the withdrawal as an incident of the speculative spirit that seems to pervade in everything. By some officials it is thought the withdrawals are made for the sole purpose of forcing another bond issue.

It can be stated, however, on excellent authority that there will not be another issue of bonds, and none will be needed. Those cognizant of the facts state the Morgan-Belmont syndicate under the terms of the contract, will undoubtedly protect the gold reserve against increased speculation, and will see to it that a reasonable balance is maintained. No doubt is expressed that as soon as grain shipments from the Northwest come in, there will be an abundant supply of foreign bills on the market to meet every demand, and withdrawals, it is thought, must necessarily cease.

State Agricultural College Opening. "The State College of Agriculture and Mechanical Arts will open for the reception of students on Wednesday, Sept. 18, 1895. Courses have been organized in Agriculture, Applied Science, Business, Music, also a ladies' and a preparatory course. For any information, address JAMES REID, President, Roseman, Mont.
